**International
presence**

01. **Elevated** production output

“ The formula to produce more and better

The secret of our success combines our five decades of expertise, our partners pioneering the sector; Fermator, Savera Group and Emesa, and our over 140 of the most talented professionals, who are constantly mastering and specialising their knowledge in the field utilising the finely tuned software SAP and our warehouse efficiency. All these elements juxtapose to our customer satisfaction, allow us to maximise our production output value while minimising waste. We invite our clients you to visit our site to see it in situ.

02. **Bespoke** solutions

“ We deliver the best results to any situation

Our objective is to find always the most suitable solution to any stumbling block. We emphasised in developing unique projects for our clients. Likewise, we have specialised in elevators for existing shafts with rather exceptional dimensions.

We have also developed projects in different continents that have been placed at top locations such as airports, hospitals, sport centres, museums, shopping centres, to say a few. Such ventures had been brought by our Commercial and Special Product expertise team.

03. Trust & Expertise

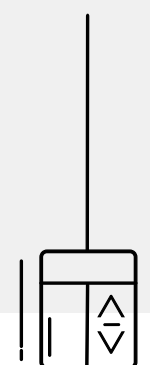

“ Your trustworthy partner

We hold more than 50 years of experience involved and committed to provide the highest standards for customer's service.

Our excellence is reflected on the more than 40.000 elevators installed and the 3.500 clients who have put their trust on us throughout all these years.

For this reason, part of our team has been deployed to various regions in Europe, to ensure we provide a much closer, fast and direct service to our customers.

We also have a completed and contemporary showroom at our headquarters, so we can showcase our accomplished leading-edge lifts and elevators to our customers.

04. High degree of automation

“ We invest in new technologies

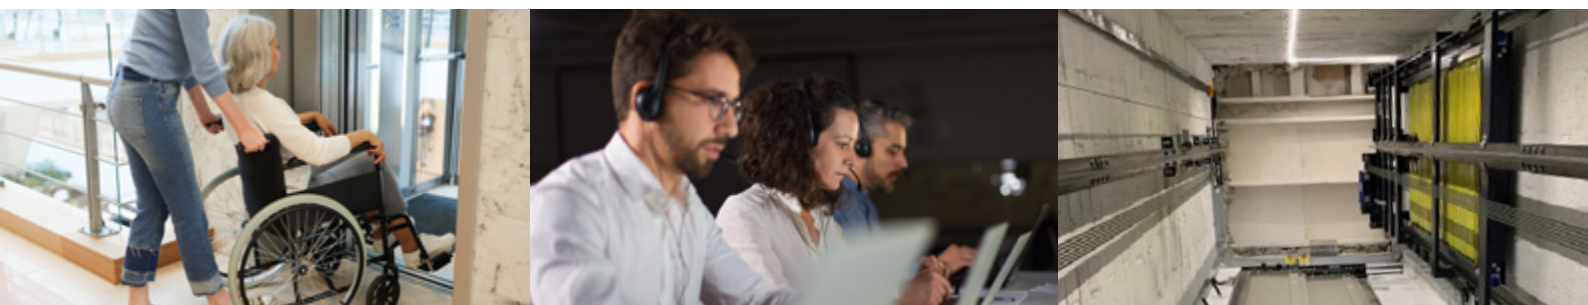

Raloe is one of the companies that stands out for its superior grade in technology development within the sector. From the very beginning, we've been continuously fostering in new electronics and communications technologies that uphold us leaders in automation.

05. Quality and Reliability

“ Quality and excellence in customer service

To guarantee our customers safety is our number one priority. Henceforth, all of our products go under a rigorous quality and control inspection to ensure they comply with their respective applicable regulations and competence.

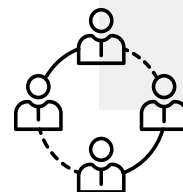

This arduous hard work and effort to deliver maximum quality, allow us to comply with the European Directive Regulations, ensuring our products meet such regulations; DIRECTIVE 14/33/EU.

We hold certification

► ISO 9001 / Module H1 / TÜV RHEINLAND

06. Service & Closeness

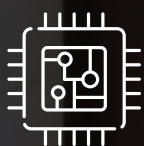

“ Always in close proximity to our customers

At **Raloe** our people are our greatest asset. We honour to have an extensive professional team specialised in offering technical assistance on lifts and their different components. This highly qualified team will provide with the best service throughout the commercialisation process of your product, including post sale assistance. We offer extensive opening hours, with commercial agents on site. We also arrange for periodical visits to our customers as to be always closer in providing excellence in our services.

Why **RALOE**

07. Ongoing **Innovation**

“ Innovation at the core of our values

At **Raloe** we prioritise investigation and development. We have years investing in the most advance technology for elevators designing, new products and computer equipment to continue offering the best product to our clientele.

Our range of elevators cover a variety of typology needs requested by our customers.

08. International presence

“ *An ever-expanding corporation* ”

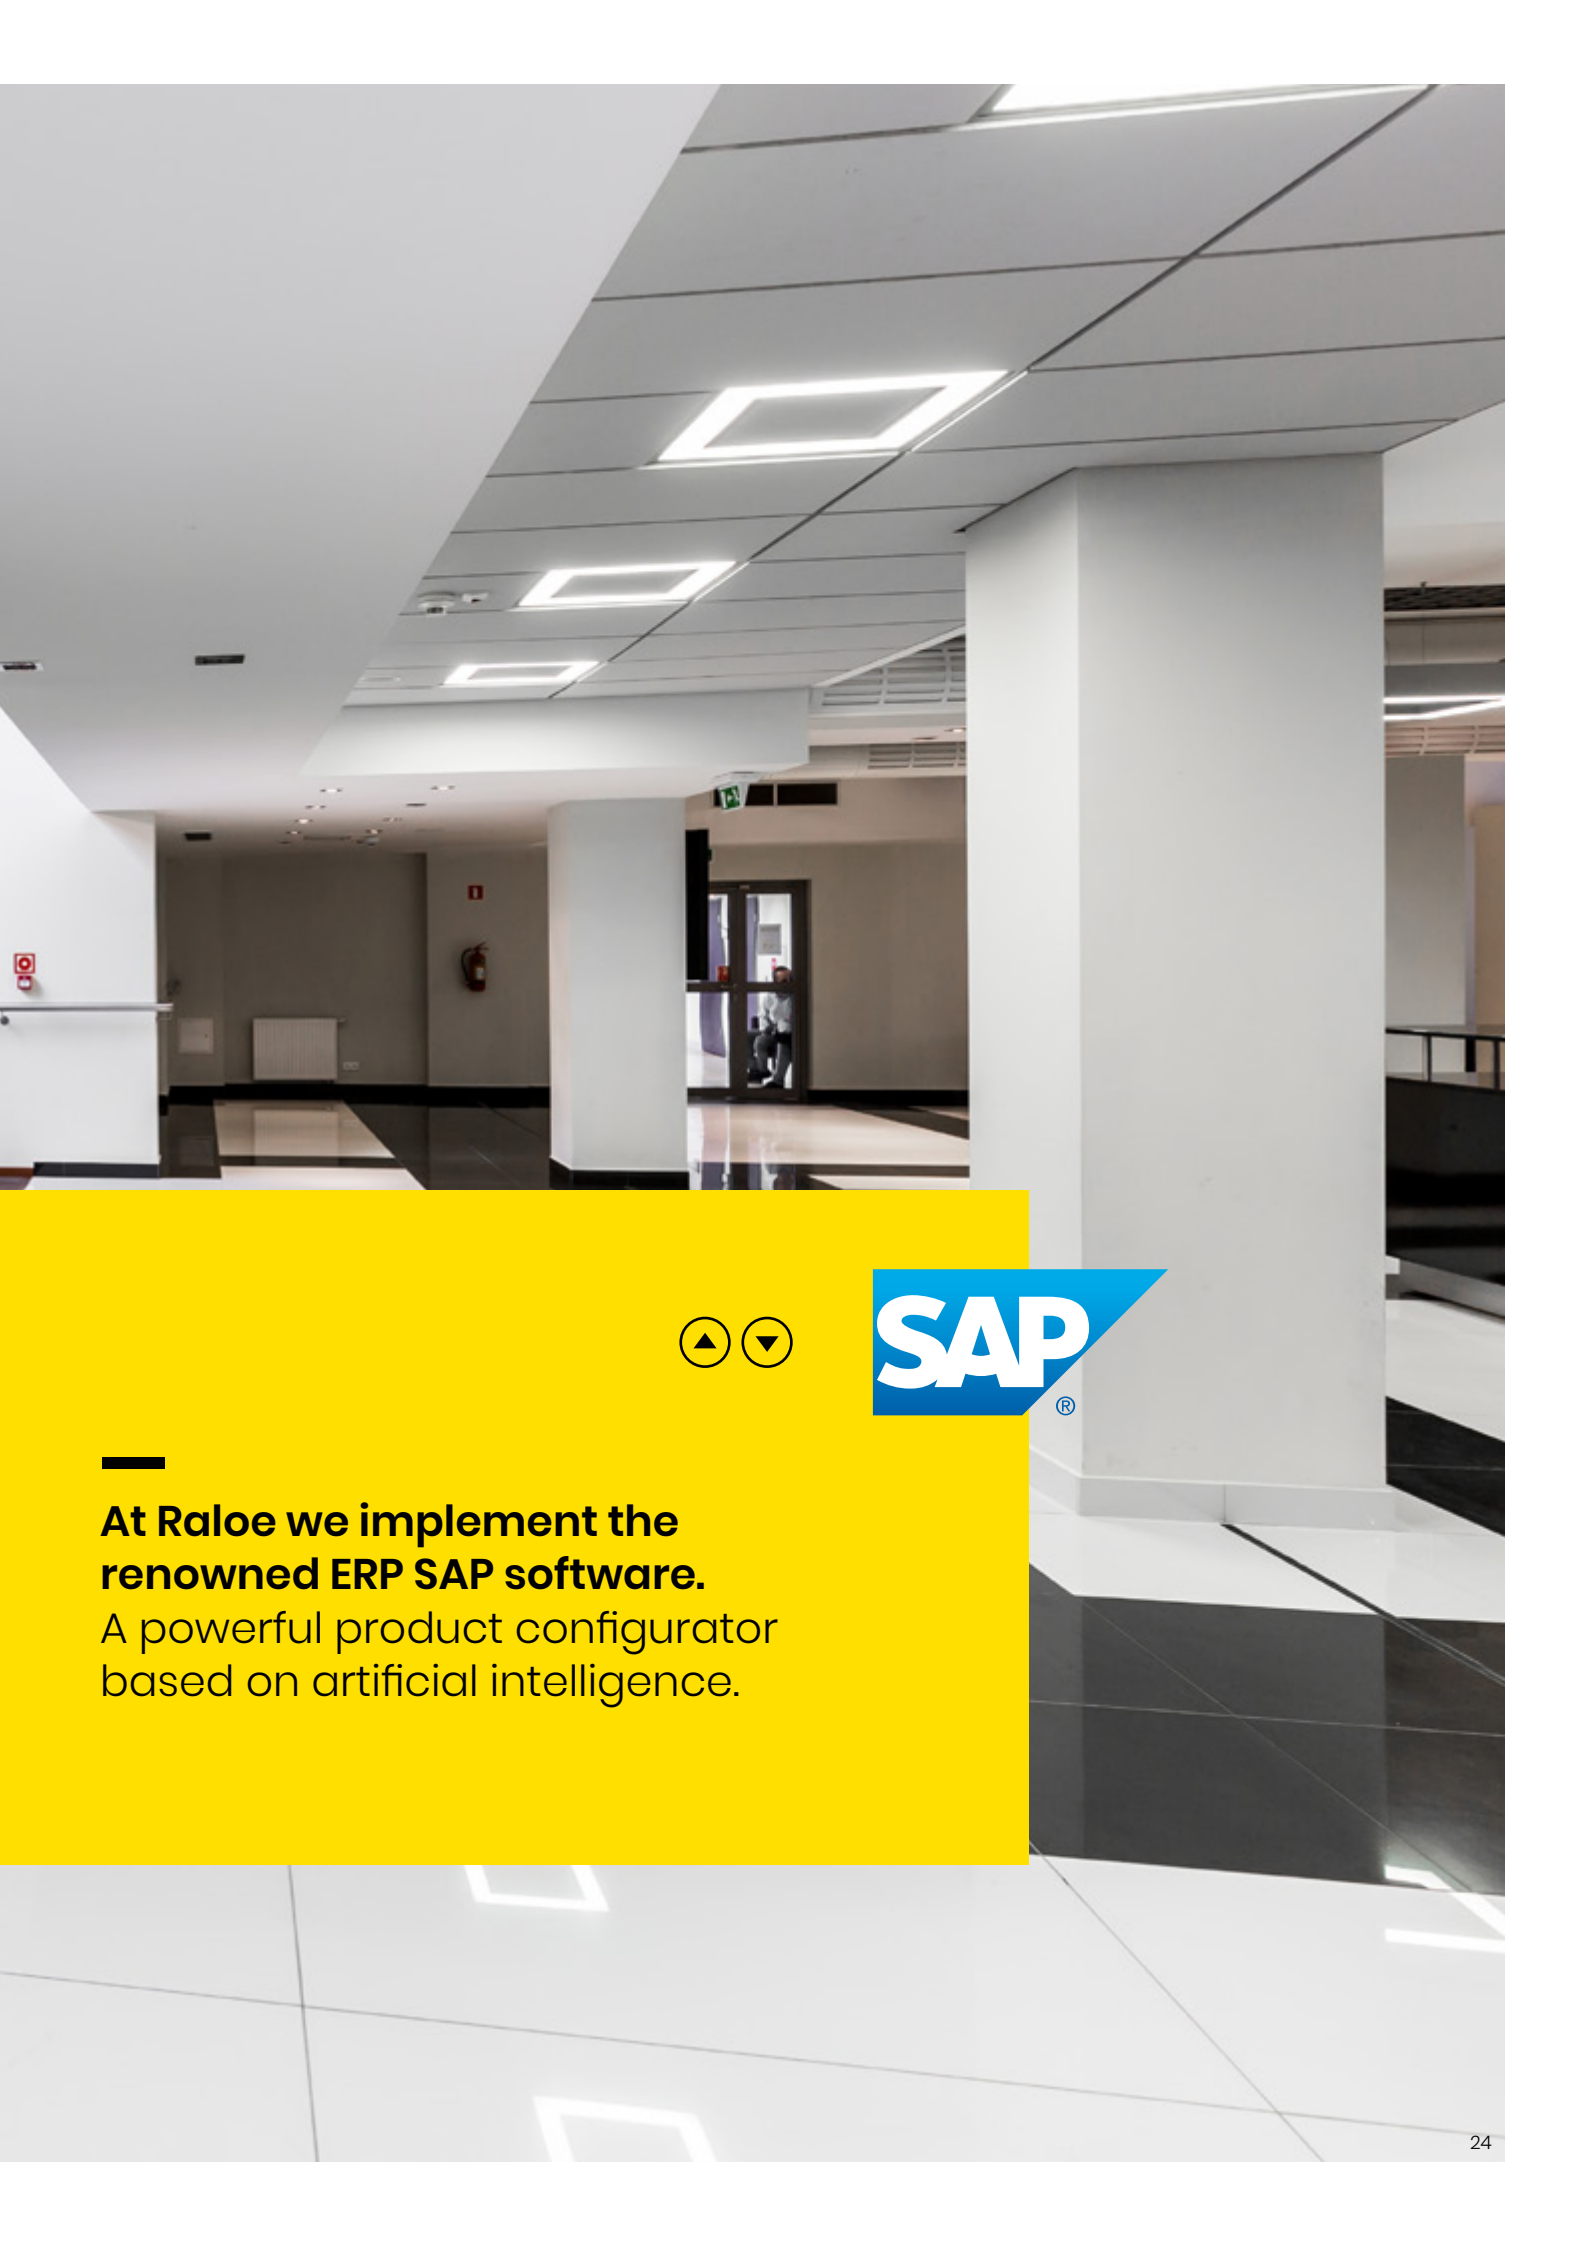

Being side by side to our consumers is our main priority. Therefore we have begun an internationalisation plan that prints our presence in more and more places each time.

We have over 10 years participating in the most prestigious elevators expos within the sector. We have left our mark in more than 60 countries to ensure we integrate the utmost service and solutions to our customers.

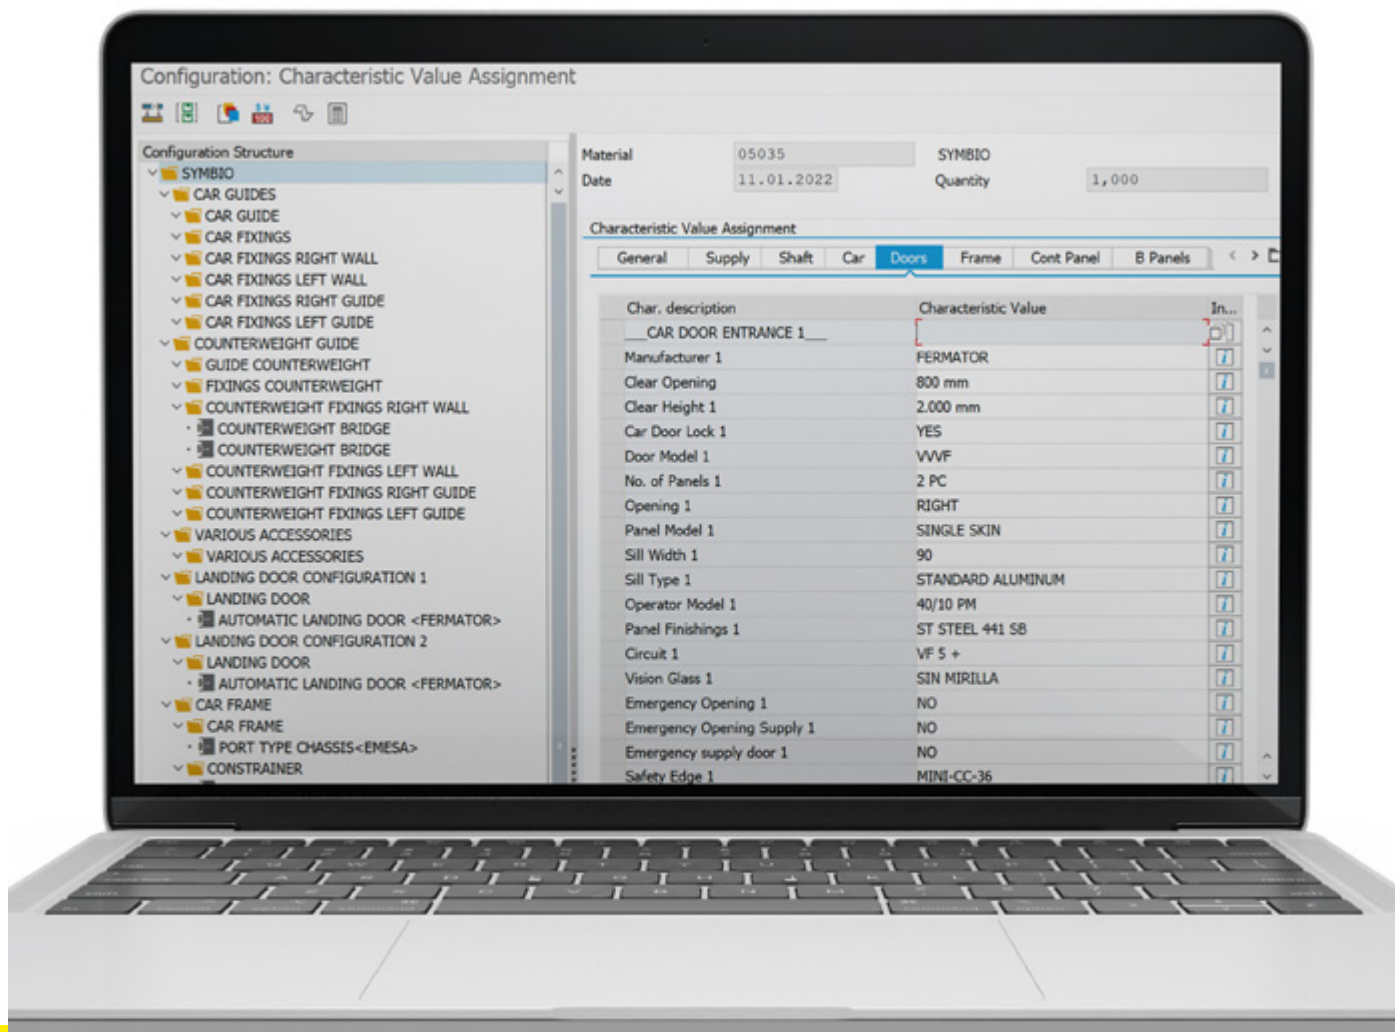

A photograph of a modern building's interior, featuring a glass and steel structure. A staircase with a wooden deck and a metal handrail is visible in the foreground. In the background, a glass elevator is seen. The text "Solutions Our system" is overlaid on the image, with a yellow triangle pointing to the word "Solutions".

► Solutions Our system

At Raloe we implement the renowned ERP SAP software.
A powerful product configurator based on artificial intelligence.

ARES Raloe Configurator

«ARES» is a powerful system developed by **Raloe's technicians based on SAP software configurator.**

This system was launched in 2008 and has successfully optimised the trading lifts processes throughout all these years.

Since its birth «ARES» have been improved by expert engineers with more than 6.000 modifications. To date, «ARES» is a mature system holding more than 90.000 inputs and more than 13.000 well-known rules.

Automatic detailed
documentation:

► Drawings

► Assembly guide

► Put into service

“

«ARES» help us in processing offers, making it more reliable and better product, from offer designing point to delivering it to the customer. Furthermore, it guaranties product validation and numerous optimal quality levels.
